Experience

Ernst & Young

Bangalore, IN

SENIOR DATA ENGINEER

February 2023 – Present

- **EY** is a global leader in tech consulting, focuses on delivering innovative solutions across industries. Renowned for its expertise in providing strategic advice and technological advancements to empower businesses worldwide.
- Seasoned Senior Data Engineer renowned for spearheading transformative data initiatives in tech consulting environments. Proficient in developing cutting-edge data parsers and optimizing systems for enhanced efficiency. Key contributions include:
- **Innovative Data Parsing Solutions:** Engineered advanced data parsers for JSON and XML formats, transforming unstructured data into a structured format. These solutions not only streamlined data extraction but also significantly reduced data size, optimizing storage and processing capabilities.
- **Architect of Robust Data Quality Software:** Led the design and development of comprehensive Data Quality software architecture. This system ensured data integrity, emphasizing accuracy and consistency throughout data processing pipelines.
- **Optimization:** Successfully optimized multiple mainframes to Python ASCII code along with the batch mode capability. This strategic transition improved system performance and accessibility, enhancing overall data processing efficiency.
- **Technologies Used:** PySpark, Python, Airflow, AWS Emr, SQL, Hive, HDFS, Cloudera

mindtree.com

Bangalore, IN

ENGINEER AT DATA COE

March 2021 – February 2023

- **Mindtree** delivers digital transformation and technology services from ideation to execution, enabling Global 2000 clients to outperform the competition. “Born digital,” Mindtree takes an agile, collaborative approach to creating customized solutions across the digital value chain.
- As part of the Big Data COE team, I am responsible to lead team, designing and integration in tool development and work flow according to requirement.
- **Technologies Used:** Spark, Scala, Python, Spring boot, MySql, Angular, Java

eLitmus.com

Bangalore, IN

INTERN FULL STACK DEVELOPER

Sep 2020 – Dec 2020

- **elitmus.com** is a first-of-its-kind service in the world. Elitmus has been redefining how fresher and entry-level recruitment is done in India. We provide an extensive range of online tools. These tools help recruiters to easily screen and select candidates based on this and dozens of other parameters.
- **Technologies Used:** Ruby on Rails, MYSQL, Javascript

Education

Institute of Technology, Guru Ghasidas Vishwavidyalaya (C.U)

Bilaspur, IN

INFORMATION TECHNOLOGY

Aug 2016 – Sep 2020

CGPA: 8.22

All India Senior School Certificate Examination(XII)

Gaya, IN

QUASMI HIGH SCHOOL (BIHAR BOARD)

2015

Percentage: 72.60

Technical Strength

Programming Languages: Python, C++, SQL, Scala, JavaScript, Ruby, Java

Technologies: PySpark, MySQL Workbench, SSIS, Hadoop, Hive, Hbase, Azure, AWS EMR, HDFS, Cloudera

Applied Skill: Machine learning, DataBricks, Unity Engine

Web Development: SpringBoot, Ruby on Rails, Angular, HTML, CSS

Projects

Crowd Estimation of an area

Gaussian filter, Python

Fingerprint Spoof Detection

GANs, Encoder and Decoder, Python
